

Abstract of the Disclosure

The beadwork accessories comprise a kit, a lap tray, a beading board and a weaving board. One or both board may be accommodated by either the kit or the lap tray. The lap tray includes a base having a pillow on a bottom surface thereof and includes a storage compartment below a board engaged therein. The kit includes a base having a storage compartment below a board engaged therein as well as a removably engaged cover which accommodates bead containers as well as beading implements therein. The kit and lap tray are both provided with a handle for transportability and the beading tray and weaving tray may also be used independently of the kit or lap tray.
